

# UCL-159

## General Information

**Name:**

UCL-159

**Synonym Name(s):****Overall Number of Objects:****MNI:****First Description:****Repository:**

[PublicAdministrativeSpace:Evolutionary Anatomy  
Unit, University College London]

**Country of Origin:**

Africa

**Property Status:****Copyright Holder(s):****Curator(s):**

## Taxon & Sex & Age Group

**Taxon:**

Homo sapiens sapiens

**Taxon Bibliography:****Sex:**

Undefined

**Age Group:**

subadult (below 20) :: infans (infans I or II) :: infans I  
(1 - 6y)

## Pathology & Preservation

**Pathology:****Preserved skeletal Parts:**

cranium/cranial fragment

**Laterality:**

unknown

**Polarity:**

-

**Preservation:**

complete

## **Preservation Details:**

### **Age Determination**

#### **Chronology:**

Recent

#### **Dating Analysis:**

CT scan

## **General chronological Information:**

### **Linked Files & Pages**

#### **Data Type:**

CT scan

#### **Collection Item(s):**

#### **Bibliography:**

#### **Multimedia Files:**

[PublicMultimediaSpace:CT UCL-159]

#### **Linked Pages:**

#### **Index:**

## **Additional Content**
